About Us

We are a fin tech professional firm, focused on delivering automation, analytics, risk advisory and digitisation services.

We believe in harnessing the power of technology to solve everyday problems with optimum resources.

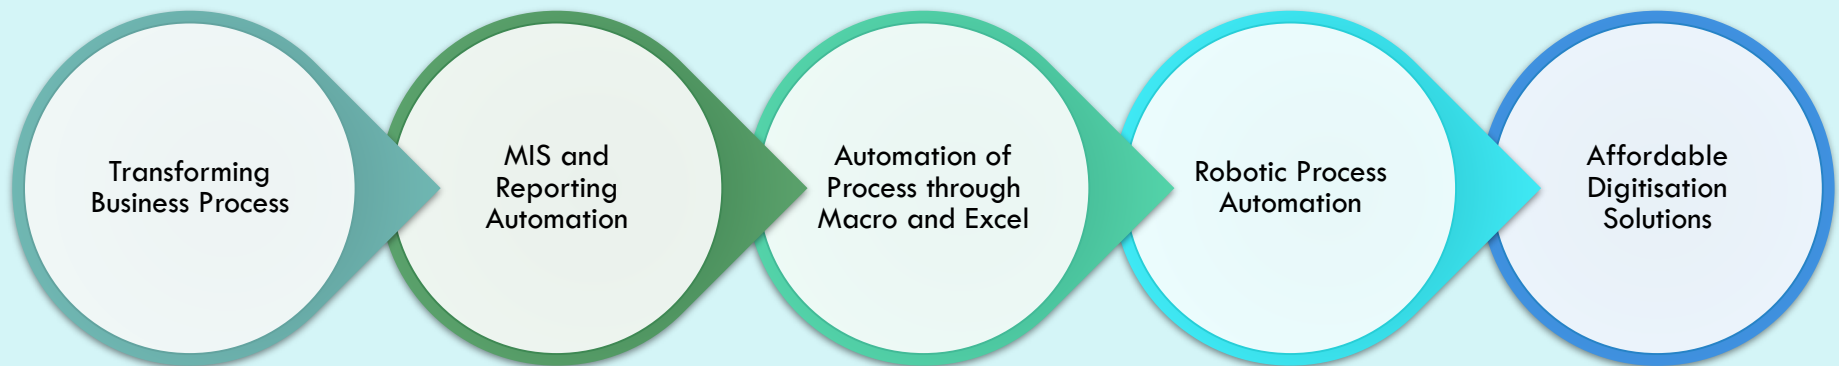

With changing technological landscape, there is an increasing need to introspect Tech-driven solutions. We at Ken & Co., help organizations cope up with the rapid changes in the business environment and to meet the regulatory requirements and add deliver value through IT. We provide a range of services starting from Governance, Risk & Compliance to Emerging Areas such as Analytics, AI and Blockchain.

Digitisation and Automation

While the world is talking about Data Science, Machine Learning, Artificial Intelligence and Robotics, Small and Medium Businesses are still to understand the importance of their business data and how it can be used to understand their operations better.

Digitization costs huge investment and is Rocket Science

Near absence of Consultants to service Small and Medium Business (SMB) due inability to educate or manage the Customer

Unable to find good people with IT skills for non-IT business

The world is moving to Digital

Not all Accounting Firms are entirely IT savvy

Problem Statement

Accounting Firms (AF's) need to expand their role beyond Audit – equip themselves with knowledge enough to evangelize Digitization with their Customers

Firms need to employ a “Techno-Functional” Consultant – single consultant across multiple customers – distributes cost across customers making it affordable – also benefits AF's

Customer confidence is more when Accounting Firms front end Digitization

Low cost IT solutions are plenty that can be used to save costs

Process Standardization is Key across customers – to enable efficiency

Automation of Reports enables error free reporting, reduces time, increases productivity

Data maintained over period of time, helps make informed decisions

DIGITIZATION THE NEED OF THE HOUR

- Dashboard Creation and Automation
 - KPI Identification
 - Data Extraction and Dashboard Creation
 - Dashboard Automation – Extraction to Emailing

Reports Process Automation

- Data Extraction and Manipulation
 - Data Extraction and Cleansing
 - Data Blending
 - Creation of Data Mart

Data Processing

- Business Intelligence Tools Implementation
 - Low Cost BI Solutions (PowerBI, Zoho)
 - Tableau, QlikView
 - Implementation and Training

BI Tools Implementation

- End to End IS Team Consulting
- Extended IS Team for EOD Reporting
- Monthly Fixed Hours Consulting
- Build, Operate and Transfer Approach
- Resources Onboarding

Management Information Consulting

- Corporate Hands On Training
